

## 2014 Report Card

### Results that Matter

With help from you...life outcomes are changing  
for deaf or hard-of-hearing New Mexicans

Infant and toddler  
families supported in  
Parent-Infant Program

**15** Preschool (ages 3-6)  
students enrolled

**6** Toddler (ages 2-3)  
students enrolled

Babies evaluated in  
Newborn Hearing Program

Additional lives changed with  
cochlear implant technology

**4**  
Deaf preschoolers graduated  
from the Oral School, ready  
to enter kindergarten

**8100**

Hours of listening and  
language therapy for  
children in Oral School

**\$800k**

Dollars raised to support  
all the programs of PEI

Community Collaborators

Break the Silence.  
Listen, Learn, and Speak.

Dear Friends,

When I think about the Presbyterian Ear Institute, I remember the old proverb: *“Give a person a fish, and they will eat for a day. Teach a person to fish, and they will eat for a lifetime.”* At the School for Oral Deaf Education, we teach deaf and hard of hearing children to listen and speak to maximize their potential. The skills they learn open a world of opportunities to be successful in life.

As I reflect on last year’s accomplishments, some highlights in 2014 include:

- For the first time, we have successfully been awarded funding from the state as a contractor for early childhood education for deaf children with cochlear implants/hearing aids!
- The School for Oral Deaf Education graduated 4 children from the program who are now attending mainstream schools, saving the state of NM about \$800,000 in special education costs. Congratulations to Jazzmyn Castillo, Flynn King, Alexandra Martinez, and Patrick Tafoya.
- Over 80% of our children are scoring at normal levels on tests that compare our deaf/hard-of-hearing children to those of normal hearing children in the same age group.
- The PEI family welcomed our new Principal, Susan Revels, Discovery Room Teacher Jess Selbee-Satterfield, and Speech Pathologist/Teacher Karen Lawson.
- Mercedes-Benz of Albuquerque, along with General Manager David Baker, partnered with PEI for the Mercedes-Benz Dealer Championship golf tournament, raising nearly \$32,000 which was matched by a private foundation.
- Judy and Michael Graham of Party City raised over \$4,000 at their annual March event.
- PEI continued to have great community support through our Run to Break the Silence, the auction at Los Poblanos, and many grant opportunities.

Our programs have helped over 250 children and adults gain access to the sounds of life--30 of these received a cochlear implant in 2014. This year’s annual report highlights some of these stories. Through your kindness and philanthropy, you have helped us literally transform lives, thank you!

PEI ended the year strong, and we continue to find ways to cut expenses and maximize income. With that in mind, we will move to an online only version of the annual report. Looking ahead, PEI is embarking on a dynamic new path to meet the changing needs of early identification of hearing loss, intervention, and deaf education. With your ongoing support, PEI is able to better listen, learn and lead to create a brighter future for those we serve. Thank you again for your generosity and continued support!

Warm regards,

Seema K. LaGree

# Our Mission

Presbyterian Ear Institute helps deaf and hard-of-hearing adults and children develop and strengthen auditory and oral communication skills using the advanced technology of cochlear implants and/or hearing aids. The world becomes a much bigger place when deaf and hard-of-hearing individuals can participate more fully in all aspects of life.

## 2014 Board of Directors

Jim Jeppson, *Chair*  
 Travis Jackson, *Vice-Chair*  
 Greg Leyendecker, *Secretary/Treasurer*

# 2014 Income and Expenses

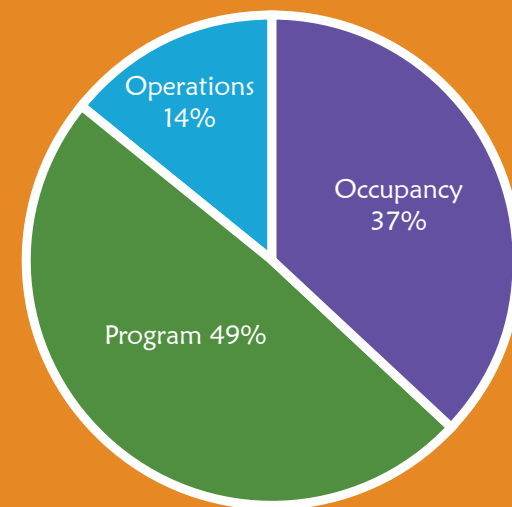

## Income

Donations	\$565,830.00
Program	486,654.00
Grants	234,045.00
Sublease	77,121.00
<b>Total</b>	<b>\$1,363,650.00</b>

## Expenses

Program	\$659,265.00
Occupancy	490,318.00
Operations	186,134.00
<b>Total</b>	<b>\$1,335,717.00</b>

# Our Programs

The ultimate goal is to help deaf or hard-of-hearing individuals realize their unlimited potential and allow them to actively participate in the hearing and speaking world. Using advanced technology and through its programs, the Institute serves children and adults in the Southwest to provide the early identification and diagnosis of hearing loss; early intervention for infants; oral deaf education to teach deaf and hard-of-hearing children to listen, learn and speak; and education and public awareness regarding deafness. The stories below demonstrate the impact of these programs.

## PARENT INFANT PROGRAM

“Born on Easter Sunday at 10:41am, our gorgeous baby boy, Abran Gabriel Garcia stole our hearts. June 26th was the initial day that we were told our son has Auditory Neuropathy. Dr. Horn introduced us to some individuals [at PEI]. We followed him down and met Seema and Amy. Looking at all these new adventures placed before us, we never imagined we would be part of such an amazing family at PEI.

Our time with Amy is imperative. She has helped us understand the levels of development for infants and has shown us numerous strategies to use in our daily life to help our son hear and speak normally. From using the listening box, practicing response time activities such as bubbles and songs, to talking about Abran's new developments our confidence in our son's hearing and speech is reinforced.

With the knowledge each staff member has at PEI about hearing loss and speech development we are able to ask questions, share stories, and feel comfortable with our son's hearing impairment. Not only does PEI help with the development of hearing and speech, they help families gain confidence and knowledge about hearing loss.”

*Alicia Ulibarri and Christopher Garcia*

## SPEECH AND LANGUAGE PROGRAM

“On 15 August 2009 Max Caruso was born at 39 weeks. Max was bestowed with numerous developmental abnormalities. His initial challenges included a cleft palate, an extra thumb, and multiple holes in his heart. His hearing ability proceeded to decline and he was then seen by Dr. Karl Horn for repeated surgeries and monitoring.

After four palate repair plastic surgeries his mouth was no longer a detriment to his ability to speak, yet he sustained no further advance in his verbal expression. At the age of three Dr. Horn took Max down to PEI. In the first few months of therapy with Ms. Laura Sheline, M.S., CCC-SLP Max made enormous strides towards verbal expression. He was able to provide simple yes or no answers to questions and this improved the communication situation in the household by leaps and bounds.

Throughout the last two years of therapy with Ms. Laura, Max has made extraordinary progress towards using verbal expressive communication. Ms. Laura and PEI have been advocates for Max and his family in all instances concerning his ability to communicate.

Max receives formal training in ASL as yet another form of development in his continuing growth. We maintain hope that Max will continue to grow in his verbally expressive ability and we are grateful to have the commitment and dedication of Ms. Laura and the staff at PEI as allies in this endeavor.”

*Dan Caruso and Wendy E.S. Caruso*

## COCHLEAR IMPLANT PROGRAM

“I was two years old, long before the measles vaccine was available, when measles struck me. My parents did not realize that I couldn’t hear. My folks decided to keep me in mainstream schooling and enrolled me in intensive lipreading training and speech classes, while using the latest in hearing aid technology; all of this kept me reasonably functional.

Things I missed: not knowing what a group is talking and laughing about; not understanding the radio; no appreciation of music; no songbirds or hummingbirds sounds; and generally feeling left out. A sudden, unexplained hearing loss of what little I had left lead to the decision to check into a cochlear implant. Funny, I never considered myself as “deaf”! Dr. Horn did my implant surgery in 2007 and it was wonderful! In 2009 I received a second cochlear implant. The difference is remarkable! “Balance” was achieved in my mind as well as “stereo” sound. To be able to tell which hummingbird species is flying by is awesome.

Volunteering at our visitor center and being active in our Lions Club has allowed me to “blossom” out and enjoy interacting with people. I can even hear better than others in a noisy party group. Of course, lipreading is still a big help. All this would not have been possible without the encouragement of my husband of 48 years and the expertise of Christine Epstein and her wonderful support.”

*Ellen L. O’Connell*

## SCHOOL FOR ORAL DEAF EDUCATION

*[Spanish to English Translation]*

“I would like to share with you the story of our only child and little hero, David. When David was born, the nurse gave us some unexpected news: “Your son did not pass the hearing screening”. This was very difficult to understand, and, as a mother, I was extremely worried. He received hearing aids when he was 6 months old and we began to receive weekly services from StepHi. David was enrolled [in PEI] at 18 months of age. We knew this would not be an easy task as his primary language is Spanish but we were determined to help David in anything and everything that was necessary.

After a few months, David’s audiologist realized that his hearing loss had progressed. David was implanted one month before his 3rd birthday. It was wonderful seeing my son enjoy better hearing. He was progressing in school and we noticed how much he loved (and preferred) his speech processor more than his hearing aid. David now has bilateral cochlear implants; his equipment works very well, and the most important thing is that my son can hear and talk and is able to express himself in such a normal manner! I can’t thank PEI enough for the support that they have given my son. Thanks to a tremendous effort from David and his teachers and audiologist, he is now a bilingual, 5 year old boy. As his mother, I am so happy to see all the progress that David has made, and I’m so thankful for all the help that PEI has given to my family.”

*Gladys Pineda*

# Gifts, Grants, Events, Honors & Memorials

*(Reflects gifts received between January 1, 2014 and December 31, 2014)*

Thank you to all of our contributors for your generous support in 2014. Through your generosity, we are able to renew our commitment to individuals with hearing loss and to our community through improvements to our programs. We could not have accomplished all that we have were it not for you! Your partnership is key to developing the financial foundation needed to ensure future growth!

## Special Events – Funding Our Mission

Proceeds of special event fundraisers in  
2014 benefitted an array of programs  
at Presbyterian Ear Institute. We are  
most grateful to our sponsors, donors,  
participants and volunteers whose  
support of our events make them so  
successful. Thank you!

## Ways to Give

There are many ways to give to Presbyterian Ear Institute (PEI).  
All are important and very much appreciated.

Gifts are tax-deductible as provided by law.

### Gifts of Cash

The most popular and easiest way of giving to PEI is in the form of cash gifts, which can be donor-directed and are tax-deductible.

### Gifts of Appreciated Property

A variable alternative to a cash gift is a gift of property. With careful planning, charitable gifts of certain types of assets will bring the donor greater tax savings than gifts of cash.

### Bequests

The simplest way to include PEI in your estate plan is to make a bequest to the Institute through your will or to add a codicil to an existing will. Gifts by will enable a donor to make significant contributions that may not have been possible during life.

### Gifts in Kind

During the year, individuals give the Institute non-cash items that are in direct support of the Institute's mission but are considered a different type of gift due to their non-cash nature. Examples of such gifts might include computers, books, sports equipment, receptions, and advertising.

### Gifts of Life Insurance

Naming PEI as the owner and beneficiary of a life insurance policy is a good way to make a large donation with a nominal cost to the donor. Premiums for such policies are tax-deductible.

### Honor and Memorial Gifts

Every year, PEI receives gifts "in memory of" or "in honor of" members of the community. Memorial and honor gifts are applied to the area of the donor's

direction. PEI is very grateful for this meaningful support.

### Planned Giving and our Endowment

Bequests currently comprise the single largest source of dollars donated to endowments, but they are just one way in which a person may make a planned gift. Other tax benefit options include trusts, insurance policies, gifts of appreciated assets, and the creation of family foundation. Regardless of the vehicle used, you are helping build a last endowment for the benefit of the programs and people served by the programs provided by PEI.

### Used Hearing Equipment

If you have used hearing aid or cochlear implant equipment that you are not using, please consider donating it to Presbyterian Ear Institute. We will put it to good use!

### Old Car?

Donate it to PEI. We will be happy to take it off your hands and you will get a tax-deduction.

### Shop On-line

Did you know that when you shop with AmazonSmile your purchase can benefit PEI? The Amazon Foundation will donate 0.5% of your eligible purchase to the Institute. It's easy! Log in at smile.amazon.com and select Presbyterian Ear Institute as your charity. We appreciate your support.

Should you wish to receive information about making a gift to PEI, please call our Development Office @ 505-224-7020. We will be happy to assist you.
